WORK EXPERIENCE

VOLUNTEER, Manos de Cristo, (Austin, TX)   Apr 2020-Current

- o   Computer instructor of intermediate level.
- o   Curriculum developer of online computer basic skills for digital devices.

APPLICATION CONSULTANT, IBM (Mexico)   May 2017-Aug 2019

IBM provided business services consulting to MAPFRE Insurance as it expanded into Central America. Hired by IBM to serve as Subject Matter Expert (SME) regarding insurance industry and as Technical Lead in the creation of new applications and maintenance of existing applications using globally recognized IBM methodologies and processes.

- o   Managed team of business systems analysts and programmers. Analysts gathered requirements from Central American countries. Interfaced between analysts and developers. Led the team of developers in creating apps; coded in Java and Oracle PL/SQL.
- o   Performed troubleshooting on existing applications; wickedly good at analyzing technical problems and coming up with fixes using Java on the front end and Oracle PL/SQL on the back.

SENIOR DEVELOPER / PROJECT LEADER, MAPFRE Insurance, (Mexico)   Nov 2007-May 2017

- o   Managed a team of developers on a massive project from diagnosis to development and deployment.
- o   Programmed in PL/SQL Oracle and Java as part of team that created a module that enabled the company to issue 20K insurance policies per day.
- o   Designed and implemented process improvement project for life insurance policies launched in a new online platform that sales agents could manage remotely.

SYSTEM ANALYST, Hildebrando, (Mexico)   Jan 2004-Oct 2007

- o   Developed and maintained requirements and budget system for health expenses, programs, and reports for the accounting department of an insurance company.
- o   Created a new layer on the system for massive processes. Participated in quality control tests.
- o   Applied fixes to the modules with "fails" in their performance using Oracle Database, Java, and Crystal Reports.
- o   Created applications developed in PL/SQL, SQL*Plus, Forms, Adobe Output Designer, Jet Forms, C++, Java for project executions in the insurance market.

EDUCATION

THE CODING CERTIFICATION, University of Texas, Austin 2022
